

Amith Seluka Arvin

Seattle, WA | Blacksburg, VA | (540) 558-3063 | amithsa@vt.edu | LinkedIn: <https://tinyurl.com/amithsel>

EDUCATION

Virginia Polytechnic Institute and State University (Virginia Tech)

B.S. in Computer Science, *College of Engineering*

Oakridge International School

IB Diploma Programme

Blacksburg, VA

Expected Graduation: May 2027

Hyderabad, IN

Graduation Date: May 2024

WORK EXPERIENCE

Virginia Tech Dining Services

Customer Service

Blacksburg, VA

Feb 2025 – Nov 2025

- Managed high-volume operations across Owens and Turners dining halls, **adapting quickly** to different stations and improving consistency and service speed

Acheron Software Consultancy Pvt. Ltd

Software Intern

Hyderabad, India

Jun 2023 – Jul 2023

- Restructured and **rebuilt ~60%** of the company website using **HTML**, **CSS**, and **JavaScript**, improving navigation clarity and **reducing user friction**
- Developed **6+ new pages** including company **job application page** with interactive UI components

PROJECTS

AI Salary Advisor

React, Flask, Snowflake Cortex, SQL, RAG

- Built an **AI salary advisor** that compares compensation against market percentiles, **visualizes pay gaps**, and adjusts targets using cost-of-living by metro area
- Implemented analytics in Snowflake using **SQL** to compute market percentiles and serve results through **Flask API** endpoints
- Integrated **RAG** with **Snowflake Cortex (Llama 3.1)** and **vector embeddings** to generate personalized **salary negotiation scripts**, turning market insights into clear **user talking points**

AI Housing Violation Reporter

TypeScript, Node.js, AWS Lambda, Step Functions, DynamoDB, AWS Bedrock

- Architected a **three-stage serverless AI pipeline** on AWS that accepts tenant-uploaded photos, extracts housing violation observations via **Claude on Bedrock**, and returns formal complaint letters with exact **legal code citations** in seconds
- Built a **citation verification system** using **DynamoDB** that validates every AI-generated housing code reference before output, eliminating **hallucinations** and producing legally accurate, **filing-ready documents**
- Orchestrated synchronous Lambda execution via **AWS Step Functions** Express Workflow, enabling end-to-end photo-to-letter processing through a single **API Gateway** endpoint with no client-side latency overhead

Sports Tracker App

Flutter, Dart, Firebase Firestore

- Developed a **real-time sports tracking app** delivering **live scores** and **player stats** from a public Sports API, instantly synced to **Firebase Firestore**
- Added **user authentication** with **Firebase**, allowing users to **sign in**, select **favorite teams**, and receive **push notifications** for live game updates

Leadership & Volunteer

Taekwondo

Instructor, Competitor

Blacksburg, VA

Jan 2011 - Present

- Achieved **4th Dan Black Belt** (Kukkiwon) while representing India at **international** (Thailand) and **national/state** tournaments in Sparring and Poomsae
- Taught and mentored **500+ students**, developing strong **leadership** and **coaching** skills
- Active competitor in **VT Collegiate Club Team**

Volunteering

- Produced **10+ promotional videos** for the Sourashtra Association events reaching **500+ attendees** across the U.S.
- Tutored **100+** underprivileged students from **Government schools** in India in **Math** and **English**, improving test scores

SKILLS & ACTIVITIES

Skills: Python (Pandas, NumPy, Scikit-learn), Java, TypeScript, JavaScript, C, Flutter, Dart, React, Flask, Node.js, Snowflake, AWS (Lambda, Bedrock, Step Functions, DynamoDB), Docker, RESTful APIs, RAG, Vector Databases, SQL, Git/GitHub, JSON, HTML, CSS, Linux, Bash, CI/CD

Additional Activities: AI/ML Club, Entrepreneur Club, Taekwondo Club
